

## Appendix Eleven: Pointer Rallies

### POINTER RALLIES

Pointer Rallies will be held on Hampton Flats at or near CCV Mark "A" (R "4"). Pointer Rally courses will be a triangle followed by a windward-leeward, (similar to Olympic course "R" except that the start and finish will be the same line.) The courses will be ~2.0 NM long using a combination of fixed marks and drop marks. A GPS will be used to measure the course length for PHRF purposes. Three races will normally be held.

### OPCYC Pointer Rally Venue

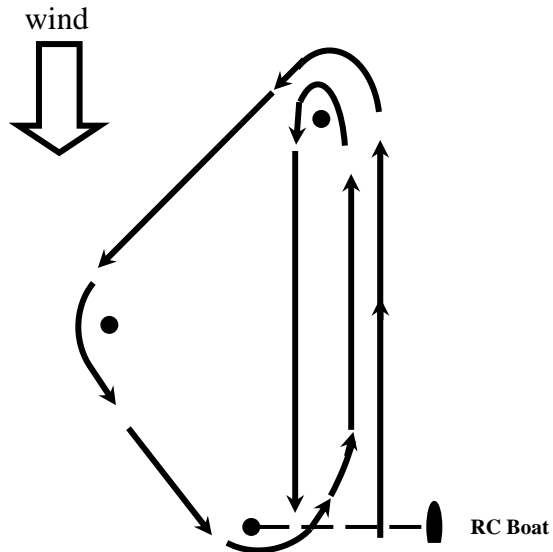

## Appendix Eleven: Pointer Rallies

The "Pin" on the port side of the start line is also the leeward mark. The same line is used for both the start and finish. Go around the triangle once, leaving marks to port, then windward-leeward, leaving the windward mark to port.

Note that the three marks may be fixed marks, floating drop marks, or a combination of fixed and floating marks.

The windward leg will be between 0.4 and 0.45 NM from the start, and the total length will be very close to 2 NM.

There will normally be three races to a Pointer Rally, with subsequent races started as soon as possible after the first race is finished.
